Meet Our 22-23 Teachers in Training

We are so excited to introduce this year's teachers in training. These ladies are dancers at Motion Studio and participate in multiple classes through out the week. They have applied to become a part of our Teachers in Training Program and have had to go through a workshop in order to assist with classes. You can learn more about our Teachers in Training Program [HERE](#). These ladies have been assigned classes to assist with through the coming year.

We are very happy to announce that Miss Allie and Miss Rachel have been promoted from being an assistant to being a student teacher in classes this year. This year they will begin to lead classes as we prepare them to teach their own classes in the future. Behind the scenes they are busy studying our curriculum and teaching methods, and are working closely with Ms. Amy and Ms. Audra as they guide them each week and provide guidance, support, and feedback.

4-Week Sessions

Did you know that 90% of a child's brain development happens before age 5? New experiences, involving music and movement are essential activities for developing brain connections.

At Motion Studio we have a very special place in our heart for our very young students. We offer specially designed, developmentally appropriate classes taught by patient teachers with years of experience. Now your little one can try a very special 4-week session with no registration fee and no recital commitment.

These 4-week sessions will take place in September and November. Spots are limited and classes fill quickly.
