Word from the director...

Recital is just around the corner and our classes are getting very excited to show you what they have been working on! Being on stage is so much fun but the benefits of performing in front of an audience are long lasting. Each recital helps our students build poise and confidence when in front of a crowd, it helps them learn to think on their feet when things go wrong (and things never go as planned in a live show!), and more importantly it gives them an opportunity to share an art form with others.

At Motion Studio we have a very special place in our heart for our very young students. We offer specially designed, developmentally appropriate classes taught by patient teachers with years of experience. Now your little one can try a very special 4-week session with no registration fee and no recital commitment.

Our next 4-week session starts in November. Spots are limited and classes fill quickly.
